**REMA Medizintechnik GmbH – a DEWIMED Company.**

**REMA was established more than 40 years ago and became a market leader for medical equipment, specializing in developing and manufacturing equipment for various medical disciplines in particular for minimal invasive interventions.**

**Our name is a trademark for high quality.**

**REMA products are sold in more than 70 countries world-wide. We are consistently expanding our portfolio in the areas of arthroscopy, laparoscopy, gynaecology and urology. Our products are manufactured in our own plants in Germany using the latest manufacturing technologies.**

**We consider our market-leading position as an obligation.**

**Our philosophy: Develop the most advanced surgical equipment. Manufacture according to the highest quality standards. Offer outstanding products at reasonable prices.**

REMA Medizintechnik GmbH – ein Unternehmen der DEWIMED Gruppe. Das Unternehmen REMA wurde vor mehr als 40 Jahren gegründet und entwickelte sich zum Marktführer für medizinische Instrumente. REMA spezialisierte sich auf die Entwicklung und Herstellung von Instrumenten für verschiedene medizinische Disziplinen, insbesondere für minimal-invasive Eingriffe.

Unser Name steht für höchste Qualität.

Vertreten in mehr als 70 Ländern weltweit, erweitert REMA konsequent sein Portfolio in den Bereichen Arthroskopie, Laparoskopie, Gynäkologie und Urologie.

Die Instrumente werden unter Anwendung modernster Fertigungstechnologien in eigenen Werkstätten in Deutschland hergestellt.

Unsere Position als Marktführer betrachten wir als Verpflichtung:

Unsere Zielsetzung ist die Entwicklung optimierter chirurgischer Instrumente für minimal-invasive Eingriffe und die Fertigung in höchster Qualität. REMA stellt seine Produkte dem Markt zu fairen Preisen zur Verfügung.

REMA Medizintechnik GmbH - una Compañía DEWIMED.

REMA se estableció hace más de 40 años y se convirtió en líder de mercado para equipos médicos, especializada en el desarrollo y fabricación de equipos para diversas disciplinas médicas, en particular para las intervenciones mínimamente invasivas.

Nuestro nombre es una marca comercial de alta calidad.

Los productos REMA se venden en más de 70 países de todo el mundo. Estamos ampliando constantemente nuestro portafolio de productos en las áreas de artroscopia, laparoscopia, ginecología y urología. Los productos son fabricados en nuestras propias instalaciones en Alemania, utilizando las últimas tecnologías de fabricación.

Consideramos nuestra posición de líder en el mercado como una obligación. Nuestra filosofía: desarrollar el equipo quirúrgico más avanzado. Fabricar de acuerdo a los más altos estándares de calidad. Ofrecer excelentes productos a precios justos.

**The REMA Arthroscopy catalog is splitted in chapters according to the different specialities. The REMA products are depicted the following way:**

**Der REMA athroskopiekatalog ist je nach fachdisziplin in kapitel unterteilt. Die REMA Produkte sind wie folgt dargestellt:**

**El catálogo de Artroscopia REMA está dividido en secciones de acuerdo a las especialidades. Los productos REMA se encuentran representados de la siguiente manera:**

**Product name**

- **Produktname**  
Nombre del producto

**Item number**

- **Artikelnummer**

All optics are equipped with 3 different light guide connectors for the most common fibers.

Sämtliche Optiken sind mit 3-teiligem Lichtleiteranschluss für alle üblichen Lichtleitkabel ausgestattet.

Todos los sistemas ópticos están equipados con 3 conectores diferentes para los cables conductores de luz más comunes.

- ③ Storz®/Olympus®-Adapter
- ④ Wolf®/Adapter
- ⑤ ACMI® Anschluss / connector
- ⑥ Storz Anschluss / connector
- ⑦ Okulartrichter / Eye piece

13-00035

130 mm, Ø 3,5 mm

### Grasping forceps

Fasszange

Pinza de agarre

### Grasping forceps

13-10035

130 mm, Ø 3,5 mm

### Grasping forceps 1x2 teeth

Fasszange 1x2 Zähne

Pinza de agarre 1x2 dientes

### Grasping forceps

13-14035

130 mm, Ø 3,5 mm

### Grasping forceps 1x2 teeth

Fasszange 1x2 Zähne

Pinza de agarre 1x2 dientes

### Grasping and biopsy forceps

13-20135

130 mm, Ø 3,5 mm

### Grasping and biopsy forceps

PE Zange

Pinza de agarre y biopsia

## Grasping and biopsy forceps with protective device and locking mechanism

Fass- und PE-Zangen mit Überlastungsschutz und Sperre

Pinzas de agarre y biopsia con dispositivo de protección y mecanismo de bloqueo

### Grasping and biopsy forceps

Fass- und PE-Zangen

Pinzas de agarre y biopsia

### Grasping forceps

13-02035

130 mm, Ø 3,5

### Grasping forceps with ratchet (Locking mechanism)

Fasszange mit Sperre

Pinza de agarre con mecanismo de bloqueo

### Grasping forceps

13-12035

130 mm, Ø 3,5 mm

### Grasping forceps 1x2 teeth with ratchet (Locking mechanism)

Fasszange 1x2 Zähne mit Sperre

Pinza de agarre 1x2 dientes con mecanismo de bloqueo

### Grasping forceps

13-16035

130 mm, Ø 3,5 mm

### Grasping forceps 1x2 teeth with ratchet (Locking mechanism)

Fasszange 1x2 Zähne mit Sperre

Pinza de agarre 1x2 dientes con mecanismo de bloqueo

### Grasping and biopsy forceps

13-22135

130 mm, Ø 3,5 mm

### Grasping and biopsy forceps with ratchet (Locking mechanism)

PE Zange mit Sperre

Pinza de agarre y biopsia con mecanismo de bloqueo

## Punches with scoop and protective device

### Stanzen mit Schippe und Überlastungsschutz

### Pinzas con pala y dispositivo de protección

#### Punches with scoop

##### Stanzen mit Schippe

Pinzas sacabocados con pala

#### Punch with scoop

13-80335

130 mm, Ø 3,5

#### Punch with scoop, curved 45° right

Stanze mit Schippe, gebogen 45° rechts

Pinza sacabocados con pala, curvada 45° a la derecha

#### Punch with scoop

13-82335

130 mm, Ø 3,5 mm

#### Punch with scoop, curved 45° left

Stanze mit Schippe, gebogen 45° links

Pinza sacabocados con pala, curvada 45° a la izquierda

#### Punch with scoop

13-92335

130 mm, Ø 3,5 mm

#### Punch with scoop, curved 90° left

Stanze mit Schippe, gebogen 90° links

Pinza sacabocados con pala, curvada 90° a la izquierda

#### Punch with scoop

13-90335

130 mm, Ø 3,5 mm

#### Punch with scoop, curved 90° right

Stanze mit Schippe, gebogen 90° rechts

Pinza sacabocados con pala, curvada 90° a la derecha

## Punches without scoop and protective device

Stanzen ohne Schippe und Überlastungsschutz

Pinzas sin pala y dispositivo de protección

### Punch without scoop

13-86335

130 mm, Ø 3,5 mm

### Punch without scoop, curved 45° right

Stanze ohne Schippe, gebogen 45° rechts

Pinza sacabocados sin pala, curvada 45° a la derecha

### Punch without scoop

13-88335

130 mm, Ø 3,5 mm

### Punch without scoop, curved 45° left

Stanze ohne Schippe, gebogen 45° links

Pinza sacabocados sin pala, curvada 45° a la izquierda

### Punch without scoop

13-98335

130 mm, Ø 3,5 mm

### Punch without scoop, curved 90° left

Stanze ohne Schippe, gebogen 90° links

Pinza sacabocados sin pala, curvada 90° a la izquierda

### Punch without scoop

13-96335

130 mm, Ø 3,5 mm

### Punch without scoop, curved 90° right

Stanze ohne Schippe, gebogen 90° rechts

Pinza sacabocados sin pala, curvada 90° a la derecha

## Hook scissors with protective device

### Hakenscheren mit Überlastungsschutz

Tijera de gancho con dispositivo de protección

#### Hook scissors

##### Hakenscheren

Tijeras de gancho

#### Hook scissors

##### 13-86435

130 mm, Ø 3,5 mm

#### Hook scissors without scoop, curved 45° right

##### Hakenschere ohne Schippe, gebogen 45° rechts

Tijera de gancho curvada 45° hacia la derecha, con pala

#### Hook scissors

##### 13-88435

130 mm, Ø 3,5 mm

#### Hook scissors without scoop, curved 45° left

##### Hakenschere ohne Schippe, gebogen 45° links

Tijera de gancho curvada 45° hacia la izquierda, con pala

#### Hook punch

##### 13-78335

130 mm, Ø 3,5 mm

#### Hook punch with scoop, 15° upward

##### Hakenstanze mit Schippe, 15° aufwärts

Pinza de gancho con boca curvada 15° hacia arriba

## Micro-scissors-punches with protective device

### Mikro-Scherenstanze

Micro tijeras con dispositivo de protección

#### Micro scissors punches

##### Mikro-Scherenstanze

Micro tijeras

#### Micro scissors

14-00435

130 mm, Ø 3,5 mm

#### Micro scissors punch, straight

Mikro-Scherenstanze, gerade

Micro tijera recta

#### Micro scissors

14-01435

130 mm, Ø 3,5 mm

#### Micro scissors punch, curved right

Mikro-Scherenstanze, gebogen rechts

Micro tijera curvada a la derecha

#### Micro scissors

14-03435

130 mm, Ø 3,5 mm

#### Micro scissors punch, curved left

Mikro-Scherenstanze, gebogen links

Micro tijera curvada a la izquierda

## Retrograde punches

### Retrograde stanzen

Pinzas sacabocados retrogradas

### Retrograde punches

#### Retrograde Stanzen

Pinzas sacabocados retrogradas

### Retrograde punch

14-70335

130 mm, Ø 3,5 mm

### Retrograde punch, straight, jaws right

Retrograde Stanze, gerade, Maul rechts

Pinza sacabocados retrógrada con boca a la derecha

### Retrograde punch

14-71335

130 mm, Ø 3,5 mm

### Retrograde punch, straight, jaws left

Retrograde Stanze, gerade, Maul links

Pinza sacabocados retrógrada con boca a la izquierda

## Suction punches with integrated suction channel

### Saugstanzen mit integriertem Spülkanal

Pinzas sacabocados con canal de aspiración integrado

#### Suction punches

##### Saugstanze

Pinzas sacabocados de succión

#### Suction punch

14-80350

130 mm, Ø 4,5 mm

#### Suction punch with integrated suction channel

Saugstanze mit integriertem Spülkanal

Pinza de succión con canal de aspiración integrado

#### Suction punch

14-81350

130 mm, Ø 4,5 mm

#### Suction punch with integrated suction channel

Saugstanze mit integriertem Spülkanal

Pinza de succión con canal de aspiración integrado

## Meniscus grasping forceps

### Meniskus Fasszangen

Pinzas de agarre para meniscos

#### Meniscus grasping forceps

##### Meniskus Fasszangen

Pinzas de agarre para meniscos

#### Meniscus grasping forceps

##### 19-00019

110 mm

#### Meniscus grasping forceps, straight

##### Meniskus Fasszange, gerade

Pinza de agarre para meniscos, recta

#### Meniscus grasping forceps

##### 19-01019

110 mm

#### Meniscus grasping forceps, curved right

##### Meniskus Fasszange, rechts gebogen

Pinza de agarre para meniscos, curvada a la derecha

#### Meniscus grasping forceps

##### 19-03019

110 mm

#### Meniscus grasping forceps, curved left

##### Meniskus Fasszange, links gebogen

Pinza de agarre para meniscos, curvada a la izquierda

# Shaver blades and burrs

## Rotationsmesser und Fräser

### Cuchillas y fresas rotatorias

**Orientation marking**  
Orientierungsmarkierung

Marca de orientación

**Wide variety of geometric forms for shaver blades and burrs**

Viele geometrischen Formen für Rotationsmesser und Fräser

Amplia variedad de formas geométricas para cuchillas y fresas rotatorias

**Compatible with different manufacturers of shaver systems**

Kompatibel mit verschiedenen Herstellern von Shaver Systemen

Compatible con diversos fabricantes de sistemas shaver

**Color code for identify different geometry forms of shaver blades and burrs**

Farbcode für die Identifizierung verschiedener geometrischer Formen von Rotationsmessern und Fräsern

Código de color para identificar las diferentes formas geométricas de las cuchillas y fresas rotatorias

REMA shaver blades available in autoclavable and sterile versions for these systems:

**Note: the marking is useful for orientation, not for measure.**  
Hinweis: die Markierung ist hilfreich für die Orientierung, nicht zum Messen.  
Nota: el marcado solo es útil para orientación, no para medir.

## Shaver blades for REMA, Linvatec, Concept, Arthrex, Atlantec

For small joints, length 80 mm, autoclavable, reusable

## Arthroscopy leg holder Arthroskopie-Beinhalter Sujetador de pierna

### Arthroscopy leg holder 19-42405

### Arthroscopy leg holder Arthroskopie-Beinhalter Sujetador de pierna para Artroscopia

### Clamping device "VARIO-FIX" 19-42411

### Clamping device "VARIO-FIX" vertically and horizontally adjustable by 60° OP-Kloben "VARIO-FIX" Vertikal und horizontal um 60° verstellbar Dispositivo de sujeción "VARIO-FIX" ajustable vertical y horizontalmente 60°

**The REMA leg holder is permeable to x-rays in the horizontal as well as in the vertical way.**

**Standard Exsanguination Cuffs can be inserted into the holder.**

**„VARIO-FIX“, adjustable laterally in both directions by 60°. These leg holders are suitable for all fixing devices of systems manufactured by other companies.**

Der REMA-Arthroskopie-Beinhalter ist sowohl horizontal als auch vertikal durchlässig für Röntgenstrahlen.

Standard-Blutleermanschetten können in die Halterung mit eingelegt werden.

„VARIO-FIX“, in beiden Richtungen um 60° verstellbar. Die Beinhalter passen in alle Halterungen von im OP vorhandenen Fremdsystemen.

El sujetador de pierna REMA, es permeable a los rayos X, tanto en posición horizontal como en vertical.

Los brazaletes de exanguinación estándar pueden ser insertados en el sujetador.

„VARIO-FIX“, ajustable lateralmente en ambas direcciones 60°. Estos sujetadores son adecuados para todos los dispositivos de fijación de sistemas manufacturados por otras compañías.

**Exsanguinator**  
Blutleermanschette  
Exsanguinador

**The Exsanguinator can be used for the hand or the foot.**

Die Blutleermanschette (Exsanguinator) kann für den Arm sowie für das Bein benutzt werden.

El Exsanguinator se puede utilizar para la mano o el pie.

**Method of Application**

**1. The patient's limb is elevated for 1 minute and then the exsanguinator is rolled onto the operators arm until his hand comes out the other end.**

**2. The operator then grasps the patient's hand or foot, enclosing all digits.**

**3. While pulling gently on the limb the exsanguinator is rolled onto it.**

**4. The exsanguinator is rolled up to the level of a padded tourniquet cuff. For adult legs assistance may be required to roll the sleeve onto the wider part of the thigh.**

**5. Tourniquet inflated.**

**6. Exsanguinator rolled off the limb.**

**Anwendungsverfahren**

1. Das Glied des Patienten wird 1 Minute lang angehoben, und anschließend wird der Exsanguinator auf den Arm des Bedieners gerollt, bis seine Hand am anderen Ende hervortritt.

2. Er ergreift dann die Hand oder den Fuß des Patienten, wobei alle Finger bzw. Zehen eingeschlossen werden.

3. Unter behutsamen Ziehen am Glied wird den Exsanguinator auf es gerollt.

4. Der Exsanguinator wird bis zu einer gepolsterten Tourniquetmanschette hochgerollt. Bei Beinen von Erwachsenen ist u. U. Hilfestellung erforderlich, um den Exsanguinator auf den breiteren Teil des Oberschenkels zu rollen.

5. Tourniquet aufgeblasen

6. Exsanguinator vom Glied heruntergerollt.

**Método de aplicación**

1. Se eleva la extremidad del paciente durante 1 minuto. A continuación se enrolla el Exsanguinator sobre el brazo del operario clínico hasta que su mano sobresalga de su extremo opuesto.

2. El operario aprieta la mano o el pie del paciente, rodeando todos los dedos.

3. Estirando suavemente la extremidad, enrollar el Exsanguinator sobre ella.

4. Se enrolla el Exsanguinator hasta la altura del manguito acolchado de torniquete. Para las piernas de personas adultas, puede precisarse de ayuda para enrollar el Exsanguinator sobre la parte más ancha del muslo.

5. Se infla el manguito acolchado del torniquete.

6. Se retira el Exsanguinator de la extremidad.
